

SLIPPERY WHEN WAXED

TASK

There has been a slip up during the final cleaning of your spacecraft. They used too much floor wax leaving the floor super slippery. Fortunately, you noticed this before you leave. Otherwise it would be impossible to move around in the spacecraft.

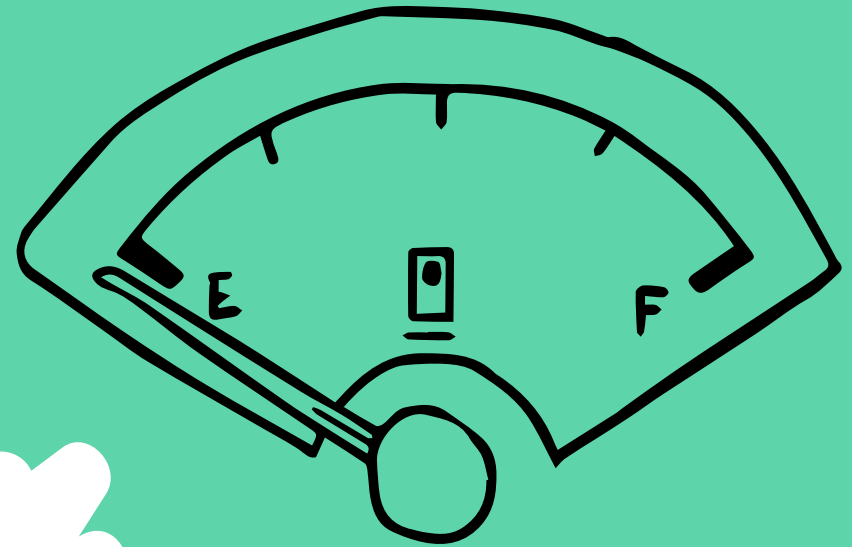

DESIGN A SHOE THAT HELPS YOU MOVE AROUND IN THE SPACECRAFT. FOCUS ON THE TRACTION OF THE SHOE AND OF COURSE THE GOOD LOOKS.

OUT OF FUEL

TASK

Intergalactic Space Station is running out of fuel... It has to save the rest of its fuel to keep the Intergalactic Space Station running. To get your spaceship going, you need an alternative source of energy for your spaceship. What would it be?

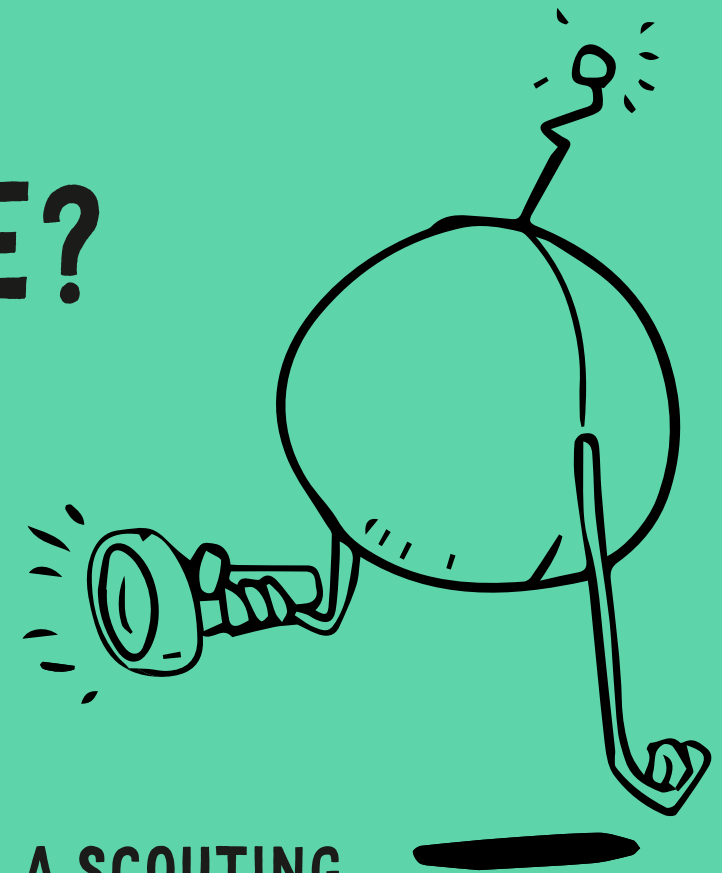

COME UP WITH AN ALTERNATIVE SOURCE OF ENERGY FOR YOUR SPACESHIP. PRESENT IT TO OTHERS AND EXPLAIN WHY YOU HAVE CHOSEN IT.

HEY WHAT'S THERE?

TASK

Before you lift off, you get a mission to scout the route to your planet. For that, you will need scouting pods for your spaceship.

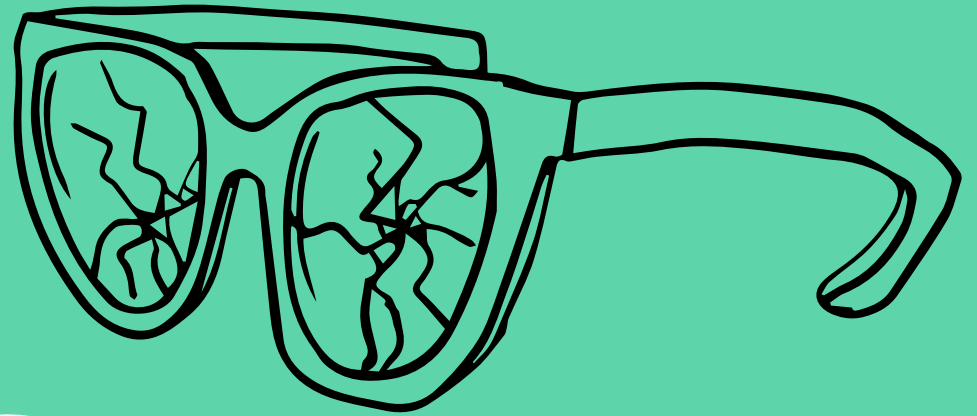

DESIGN A SCOUTING POD, WHICH IS AS SLEEK AND STREAMLINED AS POSSIBLE. SCOUTING POD'S MAXIMUM SPEED IS THE SPEED OF SOUND. HOW LONG WILL IT TAKE IT TO TRAVEL X KM'S AT THE SPEED OF SOUND?

I CAN'T SEE

TASK

The glasses of one of your crew members are broken. He was trying to light up a barbeque pit using the lenses of his glasses when you drove through a magnetic storm. Strong magnetic fields made the glasses bounce from wall to wall and from ceiling to floor. And now they are only a pile of metal and broken glass. Luckily you have some material to design new ones.

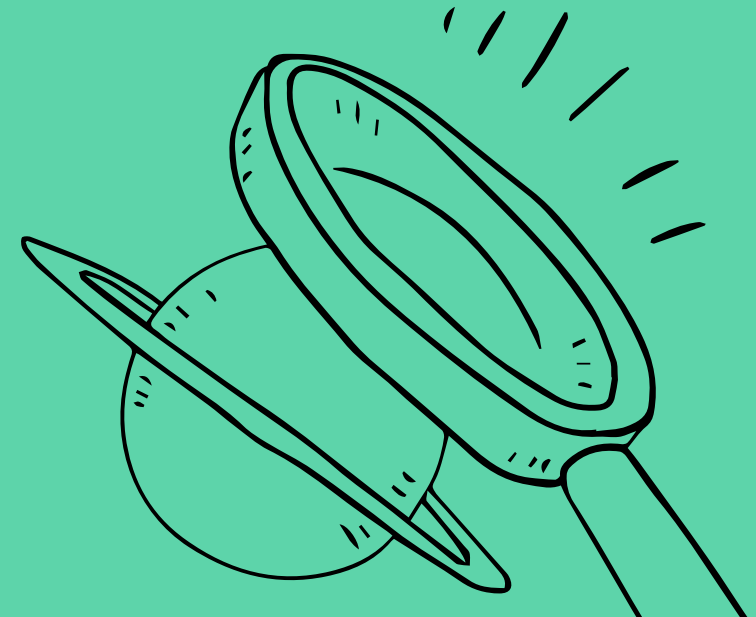

DESIGN A NEW SET OF GLASSES FOR YOUR CREW MEMBER. WHAT KIND OF LENS WOULD YOU USE IF HE/SHE DOESN'T SEE A) FAR OR B) CLOSE. DO NOT FORGET TO MAKE THE CREW MEMBER LOOK COOL IN HIS/HER NEW GLASSES.

HEY! WHAT IS THAT GLOWING GOO THERE?

TASK

Having built a nice little new home for humanity and the creatures alike, you start to do some research about the planet. First you start to look around for stuff that you can use as natural resources, which you can make use of for whatever you want to build. These may be a familiar substances from planet Earth or something totally new and indigenous to the new planet.

DO SOME RESEARCH AND COME UP WITH A FEW USABLE "NATURAL RESOURCES" ON YOUR PLANET.

ENERGY!

TASK

Your new home is booming and growing fast. So is your planet's energy consumption.

INVENT A NEW TYPE OF ENERGY SOURCE FOR YOUR PLANET. BE SURE TO CHECK OUT THE CONDITIONS OF YOUR PLANET FOR WHAT IS FEASIBLE THERE.

WE ALL GROW OLD

TASK

There are already a few elderly creatures and humans on your planet. They are complaining that it is so hard to get around on rough terrain and old legs.

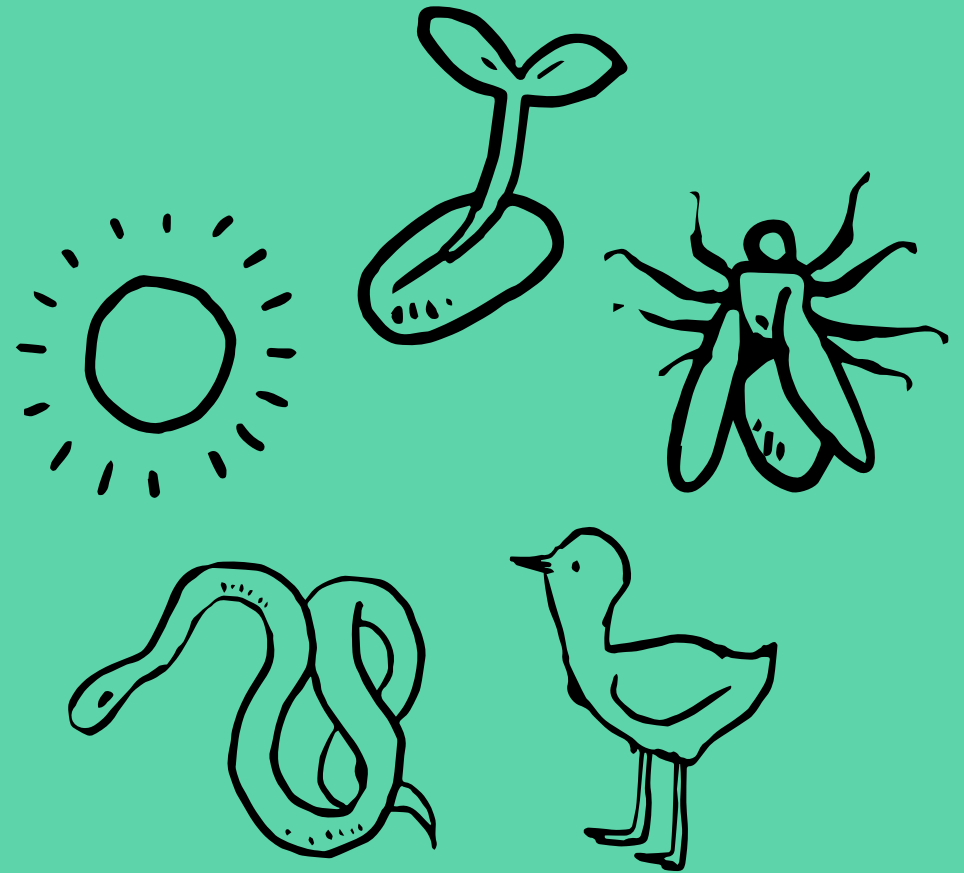

**PIMP UP A ROLLATOR
TO HELP THE ELDERLY
CREATURES AND HUMANS
GET AROUND EASIER.**

IT STARTS AND ENDS SOMEWHERE?!

TASK

Come up with few examples of food chains on your planet. You can use the creatures from the game and also come up with new lifeforms that exist on your planet. Try to make the food chain as long as possible. Remember, even the smallest of creatures might have a massive appetite.

THAT'S A BEAUTIFUL AND VERY HUNGRY LOOKING FLOWER!

TASK

Besides awesome creatures and other “beings”, there are a lot of different kinds of plants on your planet.

COME UP WITH FEW EXAMPLES OF RIDICULOUS FLORA THAT EXISTS ON YOUR PLANET. REMEMBER WHAT THE CLIMATE IS LIKE ON YOUR PLANET. PRESENT YOUR IDEAS TO OTHERS. AND HERE'S PINEBERRYCACTUS! A COMBINATION OF PINETREE, BLUEBERRY AND A CACTUS!

EASY LIVING!

TASK

Choose one creature from the deck and come up with the ideal environment for it to live in. What would suit a Fitness Obsessed Penguins the best? Maybe a planet filled with sofas, chips and TV's. Wait that doesn't sound right...

**WELL THAT'S A CUTE LOOKING PUPPY?!
I GUESS IT'S A PUPPY?**

TASK

Take a look at the fauna of your planet. There are humans, there are creatures and there is flora, so come up with few examples of the other ridiculous animals that live on your planet. Present your idea to others. Let me present to you a ducktocusrhino!
